thehub 2017–2022: A Comparison

We look forward, with your support, to continuing to grow and support health, diversity, resilience and social connection in our wider community.

*Note, 2020 was omitted from these numbers, due to Covid lock-downs and restrictions around gatherings, but during that time, the **hub** helped to vaccinate over 73,000 New Zealanders, the second largest vac centre in New Zealand.*
