Let's keep up our vaxx-mentum!

Summer is on the way and the path to a fun classic kiwi summer is clear – Let's Get Our Communities Vaccinated!

This edition of the**hub** news will be dedicated entirely to ongoing efforts to get our communities vaccinated. We are nearing some very important markers in our ongoing effort to ensure the safety of our team of five million – but we aren't quite over the finish line yet. Let's keep our eye on the prize by continuing to be informed, supportive, kind, and most importantly, vaccinated!

Why was getting vaccinated important to you?

I got vaccinated because as a health worker I want to protect myself and the people I work with from COVID-19 and vaccination is the best way to do that. I have no doubt that Covid 19 will come to our communities and our hospitals sooner or later, and high vaccination levels will strengthen our resilience when this happens. I believe we have not just a personal but also a collective responsibility to get vaccinated. - Annabel, she/her, Hospital Administrator

I got the vaccine because to me it was the right thing to do. I work with vulnerable, often immunocompromised young people and I need to keep them safe. I grew up with a disabled sibling who was extremely vulnerable to illness and often hospitalized. When people say it only affects the elderly/those with pre existing issues' it really hurts to hear, because that is my brother you are talking about. It is our duty as a society to look after our most vulnerable and this is a really easy way to do it. I am also privileged to have studied biology and have good scientific literacy, so I understand how vaccination works and that it poses very little risk, particularly in comparison to the actual pathogen it protects us against. I grew up in a very pro vaccination whānau and had all my jabs growing up, so at the end of

the day it was a bit of a no-brainer for me.

Get your vaccine at the hub! You can book online here. and join some of the often 500 people a day getting their vaccines at thehub.

While you're here, check out our spaces, and let us know if you'd like to rent some space for an upcoming gathering by e-mailing toituhub.ops@gmail.com

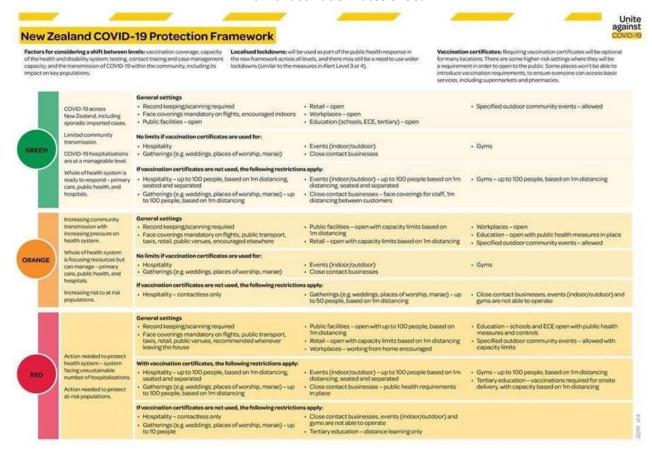

Some Information about Vaccines at thehub

The vaccine clinic at the**hub** has delivered 30,000 doses since it got started at the end of July – that's approximately 2200 doses per week! This makes up roughly 8% of all vaccinations in CCDHB. If we include our off-site vaccinations and the Waikanae Vaccination centre, we have done close to 55,000 doses or approximately 15% of all vaccinations in the CCDHB. Currently Kilbirnie is sitting at 91% with a first dose, and 76% with both doses. One common question is if there is any difference between the two doses – there is not. Both doses are identical.

It is worth reiterating that 1 dose only gives you 30-40% protection however two doses gives up to 90-95% protection. We recommend getting your second dose as soon as you can—the minimum time between doses is 3 weeks. The vaccine clinic at the**hub** is open from 9am to 4:30pm, and walk ins are acceptable. We have a lift and wheelchair access. If you or someone you know is nervous about the process, please know is perfectly acceptable and encouraged to bring a support person.

Below you will find a summary of the Traffic Light system the government has proposed we will move once DHBs hit vaccination rates of 90%.

Venue for Hire

We have a variety of spaces available for hire from 6am until 10pm, 7 days a week. We cater for meetings, conferences, parties, weddings, functions, training and so much more. Minutes from the airport and city, modern facilities with views over Kilbirnie Park. Spaces can be hired by the hour and there are special rates for community and non-profit organisations. E-mail Rebecca today to enquire at toituhub.ops@gmail.com or visit www.toituponeke.com
